

# How Microsoft Teams & SharePoint Boost Collaboration Across Departments

Modern collaboration made simple.  
Powered by Syone & Microsoft 365

Leading Open Source Solutions company in Portugal

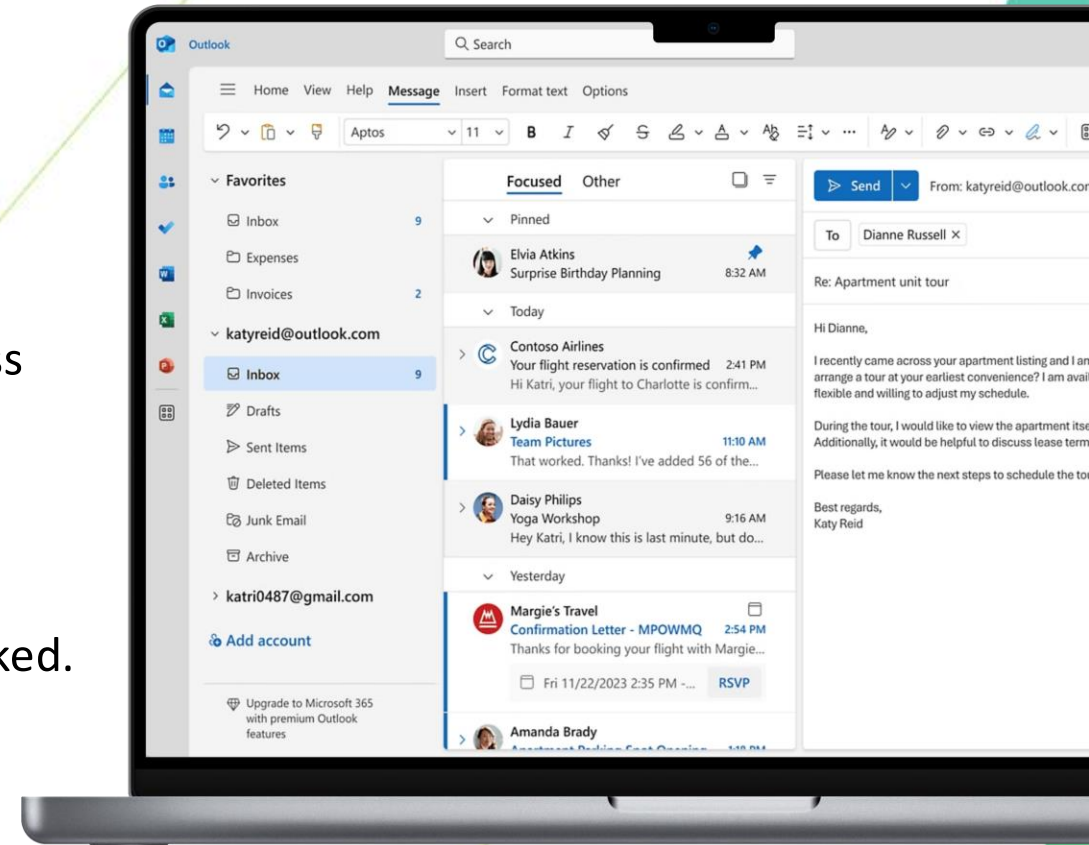

# The Collaboration Challenge

✖ Emails. Lost docs. Scattered files. Miscommunication.

Workers spend about 2,5 hours per day, or roughly 30% of the workday, searching for information across disconnected platforms.

(Source: McKinsey Global Institute)

The problem? Tools don't talk to each other. Teams get blocked. Projects get delayed.

# Microsoft 365 Solves **Solves That**

- ✓ Real-time co-authoring
- ✓ Version control
- ✓ Centralized document libraries
- ✓ Seamless chat, calls & meetings
- ✓ Secure access & permissions

Everything connects. Everyone stays in the loop.

# Teams + SharePoint vs Google Workspace

Feature Comparison	Teams + SharePoint	Google Workspace
Real-time collaboration	✓	✓
Native desktop integration	✓	✗
File management	✓	⚠
Automation/Integration	✓	⚠
Enterprise compliance	✓	✓

Microsoft wins in integration + security

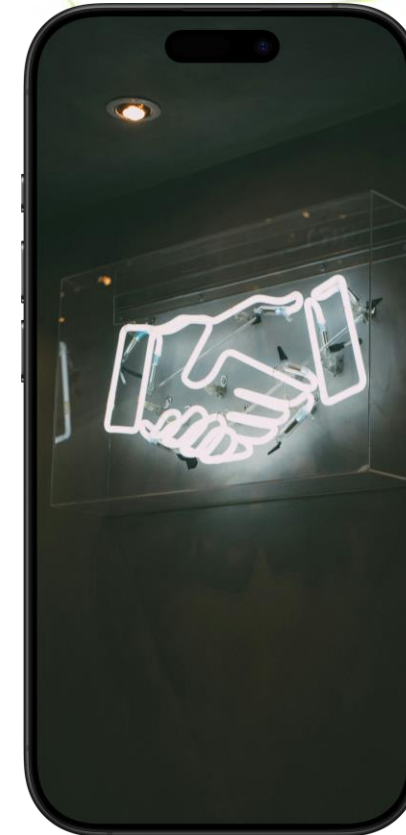

# Real Scenario - Project Kickoff Workflow

## With Microsoft 365:

- Teams channel created
- SharePoint for files
- Tasks in Planner
- Files co-edited in real-time
- Progress tracked, chat archived

## Result:

- 📈 38% faster alignment
- 🔒 Full visibility and access control
- 💡 No silos

# Why This Matters **For Your Team**

Microsoft Teams + SharePoint improve:

-  Productivity
-  Collaboration
-  Security
-  Integration
-  Better decision-making

Teams stay aligned. Workflows stay flowing. 

# IT Friendly, **End-User Approved**

- ✓ Easy to manage and deploy
- ✓ Scalable
- ✓ Familiar UI
- ✓ Built-in compliance & security

**Bonus:** Works even better with Outlook, OneDrive, Planner & Power BI.
